

NEON Satellite Site (NSS) Toolbox

The National Ecological Observatory Network (NEON) Satellite Site (NSS) Toolbox is designed to provide guidance to underrepresented individuals, institutions and geographic regions desiring to participate in the NEON research program. The Toolbox consists of a high-level executive summary, a vision and mission statement, followed by the history through three chronologies, management approach, examples of research that may be conducted through utilization of the Toolbox and a disclaimer. This material is contained in Chapters 1 – 5. Guidance on the NEON-like science subsystems and a program management approach is described in Chapters 6 through 11 of the Toolbox.
